

Signature Engineered Solutions

Quality Statement

SES is committed to continuous improvement in product and service quality to meet the requirements and specifications of our customers.

We will provide defect-free products through vendor evaluation and processes, which focus on prevention rather than detection.

SES Management is committed to working with and providing each employee with the resources and training necessary to continually improve the effectiveness of the Quality Management System.

Mission Statement

SES strives to be the premier provider of specialty and proprietary fastener components to the Original Equipment Manufacturer (OEM) marketplace.

SES is dedicated to providing its customers with high-quality, defect-free products, technical support, design / application engineering, and product samples for evaluation.

SES is committed to continuous improvement in all aspects of its business and endeavors to exceed its customers' expectations by being an efficient, proactive supplier.
